Thank you for supporting your child in their wish to learn an instrument.

Many studies have been conducted to examine the effect learning an instrument has on brain development and academic performance. The results are impressive – learning an instrument has been linked to improved literacy, numeracy, spatial reasoning and memory.

Not only that, music is great fun. It relieves stress, offers a creative outlet as well as a great sense of achievement for every song mastered or concert performed.

The Program at St Anthony’s

Lessons will be offered during school hours, in groups, pairs or privately.

Students who learn in pairs or privately will have the opportunity to take part in Australian Music Examinations Board (AMEB) Exams.

Fees

Parents will be billed for lessons at the start of each term. Fees for lessons will be as follows:

Private lessons: $25 each ($250 for Term )
Shared lessons: $15 each ($150 for Term )
Group lessons*: $10 each ($100 for Term )

* For best results in the classroom, I will only teach students in groups of a similar age and ability level. This ensures that all students are challenged at an appropriate level and get the attention in class they deserve.

Did you know...

More than 99% of U.S. Senators learnt a musical instrument as a child?
